The unique design of the DragNfly features heavy duty side rub rails. A row of adjustable, aggressive ripper teeth are offset, having a working depth of up to 4 inches. The rear 2 rows of spring tines are off set and can be adjusted by a manual ratchet or an optional hydraulic cylinder. The spring tines give an ultimate mixing effect of the surface. The rear bar roller pulverizes and packs to the desired density, leaving an attractive pattern finish. The DragNfly handles all types of footings. The DragNfly can easily be pulled with small tractor, ATV,UTV,Golfcart ect..

**The DragNfly Starting at only \$2,200.00**

**The MINI DragNfly starting at only \$1,500.00**

Check out our latest model the MINI DragNfly. It has two open cage rollers and three rows of tines! This drag is designed to mix the surface only. This drag cannot dig. It can be pulled behind ATV, golfcart etc,or small compact tractor

The DragNfly PRO renovates and conditions conventional and synthetic footings on horse riding arenas and tracks. Since this groomer handles all types of footings there is no need to buy multiple groomers when you change the footing surface in your arena. DragNfly PRO adds unique features over the DragNfly. The 3 Point Hitch swivels to allow easier turning without throwing out the footing. Coupled with a compact length, this groomer allows tight turns around jumps with a relatively low horsepower requirement.
